**Seller warrants** this Bengal to be a purebred with a traceable pedigree and eligible for registration in TICA. Breeder further asserts that to the best of the breeder's knowledge, at the time of purchase this cat/kitten is guaranteed to be of sound health and is free from genetic defects and/or congenital diseases.

**72 hour health guarantee.** It is the Buyer's responsibility to have this cat/kitten examined by a licensed veterinarian within 72 hours of purchase for a routine health exam at the Buyer's expense. Should the licensed veterinarian uncover a pre-existing condition within the 72 hour period, it will be the Buyer's discretion to return the cat/kitten to the Breeder until the condition is cleared or to assume all responsibilities related to this condition. It is recommended that the new cat/kitten be in quarantine during this time. If it is found to be medically deficient with an untreatable or life threatening problem, it must be returned to the Seller immediately along with the veterinarian's written explanation of the problem. Once the Breeder's veterinarian reviews and concurs with the diagnostics of the Seller's vet, Breeder will replace this cat/kitten with one of equal value as soon as one becomes available (may take up to eight months), or refund the full purchase price at the breeder's option. The cat/kitten cannot be returned after the guarantee period has expired. If the cat should become ill, while in your care after the 72 hour period, the Seller is not responsible for any expenses, nor obligated to neither take the cat back, nor replace it. It is the responsibility of the Buyer to provide immediate veterinary care to any cat/kitten showing signs of illness or distress, and failure to do so will render any health guarantee null and void.

**One year guarantee.** This cat/kitten is guaranteed against life threatening congenital defects until he/she reaches one year of age. Should the cat/kitten die or be diagnosed with such during this period of time, Buyer must submit medical documentation of all findings. These include but are not limited to veterinary care documentation, diagnostic testing, and an appropriate autopsy if applicable. (This information is vital to a successful breeding program.) After the Breeder's veterinarian reviews and agrees with the diagnosis a replacement will be made of a cat of similar quality and value, as available, at the discretion of the Breeder. Under no circumstances is a cat/kitten to be destroyed prior to notification by the Buyer to the Seller. All expenses

incurred are the sole responsibility of the buyer. Breeder has the right to ask for the cat/kitten to be returned before the Buyer receives a replacement. If the Buyer refuses offered replacement the Breeder will have no further obligation to the Buyer. The total liability to the Breeder will not exceed the total purchase price of the kitten.

### ***PURCAHSER AGREES TO THE FOLLOWING***

Buyer agrees to keep the cat/kitten in a clean and pleasant environment, uncaged and with proper nutrition, health care, toys and companionship.

Buyer agrees to INSIST that their vet not use Ketamine as an anesthetic for any procedure. If said veterinarian is unwilling to comply, Buyer must find another vet to perform the necessary procedure. Failure to do so will void the health guarantee.

It is HIGHLY recommended that the Buyer never de-claw this cat. De-clawing this cat/kitten will void all health guarantees.

If purchased as an unaltered pet, Buyer agrees to castrate or spay this kitten by the day the kitten turns five months. If purchased as a pet and found to have been used for breeding purposes, the cat will be surrendered and a fine of \$1,500 will be imposed.
